Q1 HSEQ CAMPAIGN

INCLUSIVE & HEALTHY WORKPLACES

Integrity and respect help people thrive

An inclusive workplace celebrates diversity and treats every employee with respect. It values individual differences and recognizes their contribution to a company's culture and success. Empowering individuals and improving workplace facilities foster equal opportunities for everyone.

Achieving true inclusivity requires collective effort. By treating others fairly and respectfully, we create a culture where everyone feels valued for their abilities, achievements, and unique qualities. We are one team – let's support and take care of one another!

HOW TO BE INCLUSIVE AND RESPECTFUL

- Use inclusive language in all interactions to promote understanding and respect.
- Report inappropriate behaviour to your manager, HR, or via an SOB card (anonymous options available).
- Support and participate in initiatives that celebrate diversity and inclusion.

SUPPORTING MENTAL HEALTH

- Reach out to your manager or HR for support resources.
- Share your concerns with trusted colleagues, friends, or family to reduce feelings of isolation.
- Take early action if you're struggling, help is always available.
