Q2 HSEQ CAMPAIGN

IT'S THE LITTLE THINGS THAT MAKE A BIG DIFFERENCE

Covered. Protected. Ready.

WEAR YOUR PPE – EVERY TIME, EVERY TASK!

Why? PPE is your last line of defence against injuries.
When? Anytime you're in a hazardous environment.
How? Always inspect your PPE before use and wear it correctly.

If you're not wearing correct PPE for the job, **you're not ready to do the job.** Use special or additional PPE when required, and always follow the instructions. Remove jewellery, secure loose clothing, and tie back long hair before starting work. Standard PPE for Reach Subsea includes:

- HELMET
- SAFETY GLASSES
- GLOVES
- STEEL-TOE BOOTS
- COVERALLS

- Check your PPE before starting work.
- Report damaged PPE immediately.
- Look out for your co-workers – Safety is a team effort!
